

Welcome to Year 4 Summer Term

Despite a sunny, warm start to the term, Year 4 were thinking about the frozen worlds at the top and bottom of the Earth.

Poles Apart

Projects carried out by the children included a range of superb artwork and models, interesting booklets and posters and great use of ICT skills including Power Points and an interactive quiz.

Well done
Year 4

Ryton Pools 2010

To support their Science work on Habitats, Year 4 visited Ryton Pools. We had an excellent day searching for minibeasts, identifying them and thinking about their interdependence and adaptation. Pond dipping was met with great enthusiasm followed by shelter building in the woods.

As always, behaviour was excellent and the children were a credit to our school.
