

Tile Hill Wood Maths Challenge

On Tuesday 5th July Lauren Brown, Hollie Berridge, Daisy Robb and Rebecca Beresford from Year 5 went to take part in a maths challenge at Tile Hill Wood Secondary School. They were joined by other schools from the area. The girls were very excited!

The competition started with a maths quiz, and then the team had to complete a maths jigsaw. Next came round 2 of the quiz and some challenging puzzles.

After a break there were more team challenges including a treasure hunt around the school grounds. Finally the girls had to make a 'house of cards'. Despite their best efforts they admit this was not their best event.

As they awaited the results the Allesley Hall team sat nervously. But they didn't need to worry as they came first! Well done girls you did us proud. Great team work!
